WHY SOCIAL AND EMOTIONAL LEARNING (SEL) SURVEYS?

WINNER OF SEL SURVEYS

NEW STAFF

SUICIDE PREVENTION AWARENESS MONTH

WHY SOCIAL AND EMOTIONAL LEARNING (SEL) SURVEYS?

Multi-Tiered Systems of Support (MTSS) is a continuum of evidence-based academic, behavioral and social-emotional practices designed to help all students. The purpose of the SEL surveys are to gauge student need. The SRSS survey identifies TK-3rd grade students' needs from the teachers' perspective whereas the 4th-12th grade SEL Survey gives us the students' perspective. Additionally, the staff SEL survey is completed so we understand your needs. The data helps us determine not only how to best support our students, but also how to best support you. So thank you for taking the time to complete these surveys this year!
SEPTEMBER IS SUICIDE PREVENTION AWARENESS MONTH

What can you do?

- Ask - Research shows people who are having thoughts of suicide feel relief when someone asks about them in a caring way. Findings suggest acknowledging and talking about suicide may reduce rather than increase suicidal ideation.
- Keep Them Safe - A number of studies have indicated that when lethal means are made less available or less deadly, suicide rates by that method decline, and frequently suicide rates overall decline.
- Be There - Individuals are more likely to feel less depressed, less suicidal, less overwhelmed, and more hopeful by after speaking to someone who listens without judgment.
- Help Them Stay Connected - Studies indicate that helping someone at risk create a network of resources and individuals for support and safety can help them take positive action and reduce feelings of hopelessness.
- Follow Up - Studies have also shown that brief, low cost intervention and supportive, ongoing contact may be an important part of suicide prevention, especially for individuals after they have been discharged from hospitals or care services.
